It's all Plastics!

Come interact with several local oculoplastic surgeons. Five surgeons will be speaking.

Tired of long lectures? Then this meeting is for you. The Oculoplastic Symposium is a new, innovative format comprised of fast-paced rapid-fire presentations mixed with traditional lectures from Oculoplastic Surgeons. Lecture length varies from 20– to 40–minutes. The course will feature a wide range of content covering the most recent updates in common lid presentations including periorbital carcinoma. Maximize your education with lively discussions featuring respected experts.

Meeting topics include cutting-edge topics as well as the most commonly found conditions for practical utilization in everyday practice. Also includes urgent conditions that need immediate referrals.
